An intelligent, connected, security and merchandising technology platform that promotes and secures all merchandise at retail.

InVue is a global technology company that provides retailers and brands with innovative merchandising, software and security solutions. Our products seamlessly promote and secure retail merchandise, enhancing the in-store experience to improve our customers' profits.

We back our commitment with a 90,000 square foot innovation, quality, design and service center in Charlotte, NC. Our quality control facilities in Charlotte and China, use custom designed testing equipment to simulate actual, daily in-store use of our products.

OneKEY™

ecosystem

The single key solution designed to increase profits.

CUSTOMER SERVICE

Empower employees to better serve customers with single key access, reducing wait times in receiving merchandise.

IN-STORE VISIBILITY

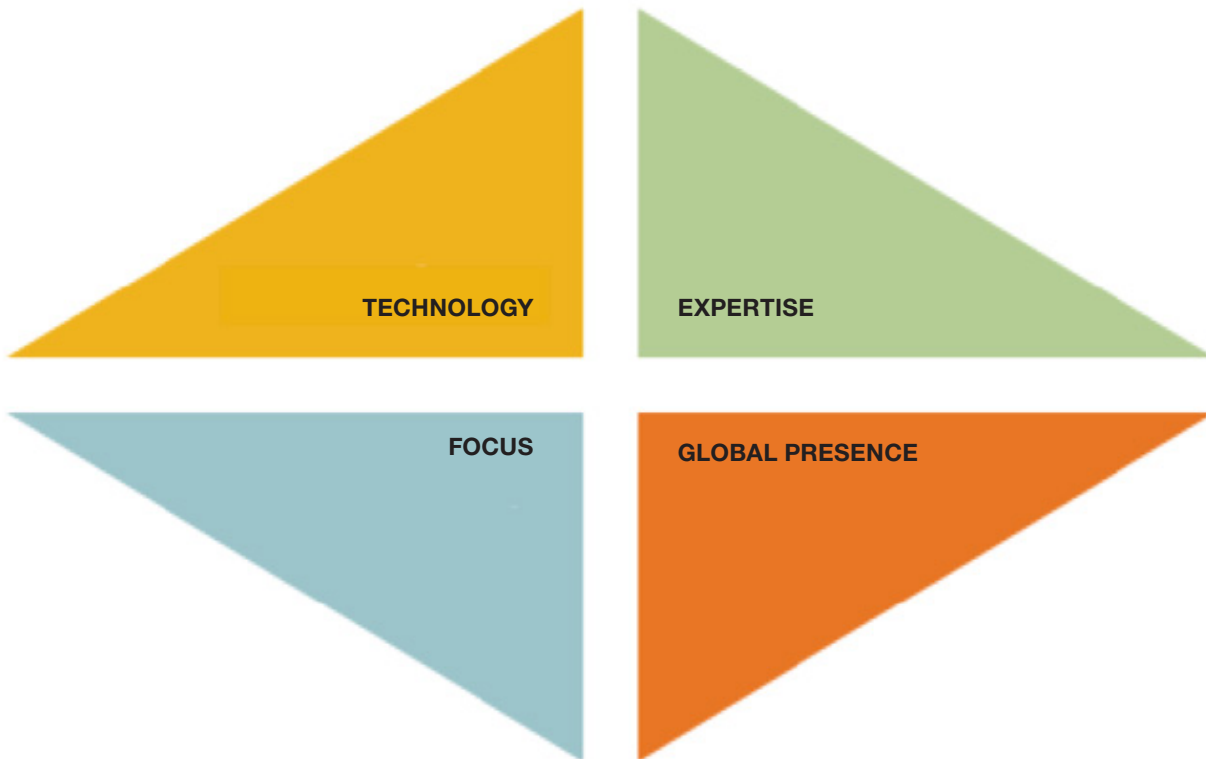

Monitor, understand and manage associate interactions through software analytics. Know who did what, where and when.

BEST-IN-CLASS SECURITY

Assign a unique code per store, 12 hour time-out feature for greater protection, and ability to create zones and audit employee use.

OUR BRAND MISSION

Enabling an Authentic Brand Experience

TECHNOLOGY

- › Investing over 7%+ yearly in research and development. Custom designed testing equipment to simulate actual in-store use.
- › 90,000 sq. ft innovation, quality, design and service center in Charlotte, NC

EXPERTISE

- › Leveraging extensive retail experience and investments to bring innovative solutions to market.
- › Broad merchandising and security portfolio alongside data and analytics that give insight into customer behavior and interactions

FOCUS

- › A history working with brands at the Head-quarter, Regional and Retail level to maintain a comprehensive understanding of the brands ecosystem.
- › Offering products that balance the desire for high experience with the need for security.

GLOBAL PRESENCE

- › Global presence and local support in 90+ countries.
- › Innovative concepts that are informed by a global retail landscape.
- › Dedicated white-glove service for brands at the HQ, Regional and Local levels.

COMPATIBILITY

SURFACE GO

SURFACE LAPTOP

SURFACE PRO

SURFACE BOOK

Series 2865

- › Flexible, multi-position system with quick disconnect sensor
- › Smart voltage regulation compensates for voltage loss between the Power Box and device allowing PD compatible charging
- › Sensor makes the product the hero and delivers a great customer experience

OnePOD

- › Above counter POD with internal recoiler
- › Compatible with InVue's software suite for data analytics
- › Scalable security with consistent look and feel for Tablets displayed without keyboards

Series 2865

Series 2865 is a flexible, multi-position security system that allows retailers to secure multiple electronics and accessories on a single fixture or display. Designed for single applications, mixed use tables and branded ecosystems, the S2865 is a modular, smart voltage regulation system with multi-voltage power boxes and a full portfolio of sensors that can be configured to accommodate different needs. The PD compatible sensors and custom security attachments deliver a great consumer experience in a clean, modern design ensuring the product is the hero.

Series 2865 split-counter view of Surface Laptop and Surface Pro display

At a glance:

FEATURES AND BENEFITS

- › Designed for branded ecosystems, mixed-use displays and category specific displays
- › Quick disconnect feature for customer interaction and easy nightly removal
- › Sensor makes the product the hero and delivers a great customer experience
- › Smart voltage regulation compensates for voltage loss between the Power Box and device up to 15V
- › Up to 24 powered and 24 alarming positions or 48 alarming only positions
- › Under counter components are future-proof and easily remerchandised for the addition of new products

COMPATIBILITY

SURFACE GO

SURFACE LAPTOP 3

SURFACE PRO 7 & PRO X

SURFACE BOOK 2 & 3

Surface Go

At a glance:

FEATURES AND BENEFITS

- › Lightweight cables, small sensor and durable security
- › Custom sensor attaches to back to allow full interaction with all features of the Surface Go
- › Dual sensor provides security for the keyboard when it is detached
- › Accessory sensors available separately

Surface Pro

At a glance:

FEATURES AND BENEFITS

- › Lightweight cables, small sensor and durable security
- › Custom sensor attaches to back to allow full interaction with all features of the Surface Pro
- › Dual sensor provides security for the keyboard when it is detached
- › Accessory sensors available separately
- › Supports Surface Pro 7 & Surface X

Surface Book

At a glance:

FEATURES AND BENEFITS

- › Customized sensor provides alarm for the device while leaving all features accessible to the customer
- › Dual sensor allows keyboard separation for Surface Book demonstration

K-Lock

K-Lock, one of the Zips for Laptops solutions, is the ideal merchandising and enhanced security solution for laptops. Available in both alarm and non-alarming options, the modern design both cleanly displays products and elevates the customer experience. Featuring a high security, cut resistant steel cable and plate, this solution balances the demand for maximum security with a highly interactive in-store customer experience. Minimize theft, upgrade the interaction experience and boost sales of high value consumer electronics.

At a glance:

FEATURES AND BENEFITS

- › High security, cut resistant steel cable
- › 200 lbs of pull force security
- › Sleek, modern design to complement laptops
- › Simple installation, no tools required
- › Alarming option compatible with Zips
- › Non-alarming, mechanical option available

COMPATIBILITY

THIRD-PARTY WINDOWS LAPTOPS

Reverse K-Lock

Reverse K-Lock, one of the Zips for Laptops solutions, is the ideal solution for laptops without a Kensington port that desire the same enhanced security our traditional K-Lock solution provides. The Reverse K-Lock applies the same level of security with a reverse application - putting the security out of sight and giving the customer optimal interaction with the product.

Available as a non-alarming option, the modern design both cleanly displays products and elevates the customer experience. Featuring a high security, cut resistant steel cable and plate, this solution balances the demand for maximum security with a highly interactive in-store customer experience. Minimize theft, upgrade the interaction experience and boost sales of high value consumer electronics.

At a glance:

FEATURES AND BENEFITS

- › High security, cut resistant steel cable
- › 200 lbs of pull force security
- › Sleek, modern design to complement laptops
- › Simple installation, no tools required
- › Non-alarming, mechanical solution

Microsoft Accessory Solutions

Optimal customer experience & security for wireless headphones.

Zips Headphone Recoiler is the only interactive merchandising solution on the market that provides both security and audio transmission through a recoiler for wireless headphones. Featuring an integrated audio cable inside the recoiler, this cost-effective solution ensures that audio always passes through to headphones, creating a stimulating shopping experience. Retailers can now openly and securely display wireless headphones for optimal customer engagement and increased sales.

At a glance:

FEATURES AND BENEFITS

- › Fully integrated audio cable for playback in the headphones, promoting an optimal customer experience
- › Reliable security to openly and safely display wireless headphones
- › Supports multiple audio barrel sizes: 2.5mm and 3.5mm
- › Integration with Zips platform

Versatile and scalable, Zips features alarm, power and high security options.

Zips provides secure protection for a wide range of merchandise and consumer electronic devices on display. As the only complete solution for powered and non-powered accessories or consumer electronics, Zips offers multiple

attachment and power sensors for both standard and high security applications. With Zips, create dynamic displays with minimal operational investment to increase sales.

NE360

Any device. Any payment. Anywhere.

The NE360 is an innovative tablet display with a flexible design that is fully mobile that provides exceptional customer interaction and increased sales. Its design gives Total freedom to chose any payment device, handheld, tablet, or OS. Integrated charging and USB connectivity enable complete mobility and transactions. Improves the in-store experience and conversion rates.

At a glance:

NE360T

- › 4ft (1.2m) drop protection, mil-spec 810g
- › Supports USB communication with compatible devices
- › Full access to speakers, mic, and camera
- › Tablet frame has integrated kickstand
- › Single and 5-position gang charger available

NE360C

- › Universal tablet mount supports any tablet
- › Quickly and easily remove tablet for mobility
- › Heavy-duty cast metal construction base
- › The base can rotate 270° or can be locked down and the tablet tilts 30°-75°

CT200

Durable and versatile fixed tablet display, wherever you do business.

The CT200 is a high security, fixed tablet solution that allows businesses to place tablets anywhere. It features three stand options that include a counter display, wall/VESA mount, and floor stand. Tamper-resistant and durable enough for high traffic environments, the CT200 is distinct in its ability to offer security and ease of maintenance in any commercial setting.

At a glance:

FEATURES AND BENEFITS

- › Three counter-based stands — fixed, swivel, and freestanding
- › Low profile wall mount bracket with standard 75 mm VESA pattern
- › The floor stand features a weighted base designed to be resistant to accidental tipping and can be bolt mounted for added stability
- › Tablet tilt is standard on the floor stand (from 30° to 85°)
- › Frames compatible with 10" and 12" tablets

CT101

High-security, instantly mobile universal tablet stand with integrated charging.

The CT101 is a high-security, instantly mobile universal tablet stand with integrated charging. When docked the CT101 automatically locks and immediately begins charging so that the tablet is secure, completely powered and ready for use. The rugged tablet enclosure can be easily removed for mobile use and includes ergonomically designed handles with straps to reduce user fatigue and can be adapted to a variety of business needs.

At a glance:

FEATURES AND BENEFITS

- › Rugged all-metal stand securely mounts to any drillable surface
- › In-stand contacts charge tablet when docked to support standalone or attended use 24/7
- › IR interface is easily accessed. OneKEY™ or CT Key instantly unlocks the tablet for mobility with no impact to transaction time
- › Easily rotate tablet between portrait and landscape orientations
- › Swivel base option rotates 180° in either direction for enhanced customer engagement
- › Base plate option for drill-free surfaces

CT80 & CT150

The freestanding tablet display that's ready to use right out of the box.

Take your business to your customers with a fixed kiosk and mobile tablet solution. Tablets can easily be rotated to portrait or landscape mode as well as flipped to face the customer. The CT150's versatile design allows the tablet to easily be removed for mobile use from the base plate providing a second auxiliary stand as well as a convenient handle. CT150 works with all tablets regardless of manufacturer or operating system.

At a glance:

FEATURES AND BENEFITS

- › Utilize OEM power cable for charging (CT80 only)
- › Integrated charging keeps your tablet powered and ready to use (CT150 only)
- › Tablet can go from fixed to mobile in seconds with InVue's OneKEY™ (CT150) or a simple switch
- › CT80/CT150 supports a wide range of tablet sizes regardless of manufacturer or operating system
- › Easily rotate between landscape and portrait display and flip to face the customer
- › Freestanding out of the box with fixed mounting options available
